

Technical data

Voltage	100-240Vac
Output current	1.1A
Max. dimmer load	150W LED
Dimming	Trailing edge
Exterior dimension	L: 44 mm, W: 46.8 mm, D: 37 mm
IP rating	IP20
Material	Plastic
Environment	Indoor
Warranty	5 years
Approvals	CE

Product information

- Input and output with screw terminals, safe and reliable
- Trailing edge dimming: 5-150W
- Can directly pair to a compatible Zigbee Gateway
- Can be controlled by universal 230Vac input single wire push switch
- Fits in 1M Danish system
- Radio Frequency: 2.4GHz
- Memory function for dimming
- Power metering via Homey

Rotary Dimmer Zigbee

Item no.	EAN no.	Environment
98424072	5704629005839	Indoor

Rotary Dimmer covers

Item no.	EAN no.	Colour
98823218	5704629005853	matt white
98823228	5704629005860	matt grey
98823298	5704629005877	matt black

NB: Always use cables of a type approved for permanent installation according to the current legislation. If the cables are in contact with the lamp cover, use cables with an operating temperature of at least 70° C.
